## Work Experience

---

### Front End Web Developer

Rentmann Properties - Accra

May 2022 to Present

As a Frontend Web Developer Freelancer at Rentmann Properties, I collaborate closely with the backend Laravel development team to enhance and optimize the company's web presence. Leveraging my expertise in frontend technologies, I contribute to the design and implementation of responsive, user-friendly interfaces that elevate the overall user experience.

Key Achievements and Responsibilities:

- Work closely with the backend team to integrate visually appealing and intuitive frontend components into the Laravel-based website.
- Utilize HTML, CSS, and JavaScript to develop responsive and cross-browser-compatible user interfaces.
- Implement and maintain design consistency throughout the website, ensuring a seamless and cohesive user journey.
- Collaborate with UI/UX designers to translate wireframes and design mockups into functional web pages.
- Stay abreast of industry trends and emerging technologies, integrating new tools and best practices into development processes.

### National Service Personnel

Ghana Atomic Energy Commission Basic School - Accra

November 2022 to October 2023

Job Role: Computing Teaching Assistant

- Provided technical support and assistance to teachers in effectively integrating technology into their lesson plans, enhancing the overall learning experience for students.
- Conducted training sessions for teachers to improve their basic computing skills, ensuring they were proficient in essential software applications and tools.
- Delivered comprehensive programming instruction to students, covering HTML, CSS, JavaScript, and core Java, fostering a strong foundation in coding and web development.
- Created engaging and interactive programming lessons and projects, tailored to the students' skill levels, to facilitate effective learning and skill development.
- Assisted in the development and maintenance of the school's digital resources and e-learning materials, contributing to the modernization of the educational curriculum.

- Collaborated with fellow educators and school staff to identify opportunities for incorporating technology and programming into various subjects and projects, promoting interdisciplinary learning.
- Mentored and provided guidance to students, helping them with coding challenges, debugging, and project development, nurturing their interest and proficiency in programming.
- Demonstrated a strong commitment to promoting STEM education and digital literacy among students, fostering a passion for technology and programming from an early age.

## **Front End Developer**

Rentmann - Accra

February 2022 to April 2023

Position Title: Frontend Developer & Collaborator at Rentmann, Ghana

- Collaborated with Laravel backend developers to enhance the Rentmann website's functionality and user experience.
- Contributed significantly to the frontend development, implementing responsive designs and user interface improvements.
- Successfully integrated new features, ensuring seamless user navigation and a visually appealing website.
- Played a key role in optimizing the site's performance, resulting in improved loading times and user engagement.
- Actively participated in team discussions, fostering a collaborative environment and contributing innovative ideas for site development.

## Education

---

### **Bachelor's degree in Information and Communication Technology Education**

University of Education, Winneba - Ghana, Winneba

September 2018 to October 2022

## Languages

---

- English - Fluent

## Certifications and Licenses

---

### **Software Development Graduate Programme -AmaliTech**

April 2022 to Present

Successfully completed a comprehensive Software Development Graduate Program at AmaliTech, a leading technology training institution. Acquired proficiency in key web development technologies, including HTML, CSS, JavaScript, React, and Redux. The program provided hands-on experience in software development methodologies, project management, and collaboration within a team environment.

### **Agile Methodology Job Simulation**

August 2023 to Present

Engaged in a practical and immersive Agile Methodology job simulation organized by Cognizant on Forage, where I gained valuable insights into the fundamental principles of Agile and its distinctions from traditional Waterfall methodology. The simulation covered various aspects, including user story development, Scrum framework, and effective teamwork within an Agile environment.
