SO

SAMUEL OBENG

Professional summary

Results-driven Frontend Web Developer skilled in creating dynamic and responsive user interfaces with cutting-edge technologies. I thrive in creating seamless and engaging web experiences with ReactJS, ReactQuery, and Redux.

My grasp of JavaScript, along with an eye for UI/UX design, enables me to turn ideas into pixel-perfect, performant applications. I bring a comprehensive approach to frontend development, assuring both functionality and aesthetic appeal.

I am well-versed in HTML, CSS, and Tailwind CSS. I am committed to developing high-quality, scalable solutions that improve customer delight and generate corporate success, and I am passionate about staying current with industry developments.

I thrive in collaborative environments, valuing open communication and teamwork. I actively seek input from cross-functional teams and contribute constructively to discussions, fostering a positive and inclusive work atmosphere.

I am devoted to lifelong learning and self-improvement. By being current on evolving technology and industry trends, I am able to bring new views and inventive solutions to each project.

Work history

Rentmann Properties, Accra - Front End Web Developer
Accra, Ghana
05/2022 - 01/2024

- Contributed to design and implementation of responsive, user friendly interfaces that elevated overall user experience.
- Worked closely with 2 Laravel backend developers to integrate visually appealing and intuitive frontend components into Laravel-based website.
- Utilized HTML, CSS, Bootstrap and JavaScript to develop responsive and cross-browser-compatible user interfaces.
- Implemented and maintained design consistency throughout website, ensuring a seamless and cohesive user journey.
- Collaborated with UI/UX designers to translate wireframes and design mockups into functional web pages.
